

Special thanks to the following collaborators:

Melisa P. Ball, MA, CCRP, CCRA, CIP

Director, Office of Human Research at George Washington University

Adriana Brigatti, JD, MPH, LLM, CIP

Director of Research Regulatory Affairs at Children's National

Robert Donnally, JD

Director of Regulatory Affairs and Outreach at George Washington University

Pamela S. Hinds, PhD, RN, FAAN

*Director, Department of Nursing Research and Quality Outcomes,
Associate Director, Center for Translational Science at Children's National;
Professor, Department of Pediatrics at George Washington University*

Jodi Kanter, PHD

*Associate Professor, Department of Theatre and Dance at
George Washington University*

Maryann Rossi, PhD, CIP

*Education and Accreditation Manager for the Office for the
Protection of Human Subjects at Children's National*

Lisa S. Schwartz, EdD, MS

*Associate Director, Research Education, Training, and Career Development,
Clinical Translational Science Institute at Children's National; Assistant
Research Professor, Department of Clinical Research and Leadership at
George Washington University*

Meet the playwright and director:

Jodi Kanter, PhD, is an Associate Professor in the Department of Theatre and Dance at George Washington University. Her expertise is in community building through theater. She has done this work in a wide array of settings including healthcare, arts, environmental, and public safety programs. Her book, *Performing Loss*, was published by Southern Illinois University Press in 2007.

PLAYBILL

The Leadership Takes the Stage: Responsible Conduct of Research

The Children's Research Institute, the Clinical and Translational Science Institute at Children's National, the Office for the Protection of Human Subjects and the George Washington University research community welcome you to this Responsible Conduct of Research interactive training session.

The following scenarios will pose real-life ethical situations researchers may encounter.

Scenario 1 "Moving Targets"

When a participant's expectations of a clinical trial are too high.

Characters:

Vic Parson, a prospective clinical trial subject.....Mark Batshaw, MD
Olivia Parson, his wife.....Lisa Schwartz, EdD, MS
Penny Rogers, Lead researcher.....Lisa Guay-Woodford, MD
Margaret (Meg) Wiler, Research Coordinator.....Madison Berl, PhD
Dr. Wyatt, attending for Vic Parsons.....Elizabeth Wells, MD

Moderator:

Melissa Ball, MA, CCRP, CCRA, CIP

Scenario 2 "Quiet as a Mouse"

When a colleague asks you to falsify data.

Characters:

Valerie, a graduate student.....Natella Rakhmanina, MD
Rob Thompson, a senior faculty researcher.....Mendel Tuchman, MD
Sam, Research Integrity Officer.....Kanneboyina Nagaraju, PhD, DVM
Lynn, Valerie's Friend.....Emily Meier, MD

Moderator:

Robert Donnally, JD

Scenario 3 "Publish or Perish"

When a peer-review is guided by bias and personal jealousy.

Characters:

Vanessa, a senior researcher.....Naomi Luban, MD
Jacqueline, a junior scholar from another university.....Kathy Kelly, PhD, RN
Allison, Jacqueline's sister, owns a catering business.....Emily Meier, MD
Leah, a mid-career researcher at another lab.....Madison Berl, PhD
Barb, head of Jacqueline's department....Adriana Brigatti, JD, MPH, LLM, CIP

Moderator:

Pam Hinds, PhD, RN
