

Responsible Conduct of Research

Diana Bharucha-Goebel, MD
Muscular Dystrophy Association Program,
Director,
Children's National Hospital

Part II

Informed Consent in cellular and gene therapies: *How informed is informed?*

David Jacobsohn, MD, ScM, MBA
Blood and Marrow Transplantation,
Division Chief,
Children's National Hospital

Learning Objectives

- Understand cellular and gene therapy risks, benefits, and opportunities.
- Understand the unique ethical challenges to gene replacement therapy clinical trials, specifically in rare and ultrarare disease populations.
- Discuss ethical considerations regarding enrolling vulnerable populations, including critically ill patients and their families on investigational clinical studies.

Michael Keller, MD
CETI Program,
Co-Director,
Center for Cancer and Immunology,
Children's National Hospital

Grand Rounds:
"The Gene Therapy Landscape at
Children's National Hospital" with
David Jacobsohn, MD, ScM, MBA

September 27th at 8am

About the Seminar

As a condition for receiving federal funding for health research training grants and career development awards, federal funders (including NIH, DOD, and NSF) mandates all participants in training grants to receive training in RCR.

Visit ctsinc.org/RCR to learn more about RCR Training Requirements.

**Thursday,
September 28th
at 3pm**
