

2024 FDA/CTSI-CN Boot Camp

A unique, immersive experience in regulatory science for early-career investigators

This unique opportunity — developed as a partnership between the FDA and CTSI-CN, **provides Children's National fellows with a six-month immersion experience at the FDA.** Over the course of the Boot Camp, fellows take part in FDA meetings, join multidisciplinary teams of regulatory scientists, and work with FDA experts to complete a capstone project.

Program Information

- **Eligibility:** The first Boot Camp is open to all Children's National fellows with active appointments as of July - December 2024. **Applicants must also attend at least one of the upcoming pre-Bootcamp sessions** (information below).
- **Format:** The boot camp consists of longitudinal rotations, with one-week sessions per month at the FDA for 6 months (6 sessions). This format is flexible.
- **Selection Process:** Applications will be due in January 2024. The one (1) fellow selected for the first Boot Camp will be selected in February 2024.
- **Program Dates:** Boot Camp will take place from July - December 2024.

Upcoming Pre-Bootcamp Sessions

Before the application window opens, the FDA will hold a series of four pre-Boot Camp sessions in November 2023, open to the Children's National research community. FDA staff will present on topics directly related to the Boot Camp. **Anyone interested in applying for the boot camp must attend at least one of these sessions.**

<u>Session 1</u>	<u>Session 2</u>	<u>Session 3</u>	<u>Session 4</u>
